Annual Wellness Visit¹ and preventive care services at \$0 copay²

An Annual Wellness Visit with your provider is one of the best ways to start your year off and stay on top of your health.

Take control by scheduling your annual physical and wellness visit early in the year to give you the most time to take action.

You and your provider can work as a team to create a preventive care plan, review medications and talk about any health concerns.

UnitedHealthcare® HouseCalls

Get a yearly check-in with a member of our licensed medical staff who will:

- Perform a head-to-toe exam, health screenings and answer your health questions
- Review your medical history and medications
- Send a summary of your visit to you and your primary care provider

Video visits from UnitedHealthcare HouseCalls — A HouseCalls video visit uses technology to connect plan members with a health care practitioner for up to a full hour to review your health history and current medications, discuss important health screenings, identify health risks and provide health education.

A HouseCalls visit is designed to support, but not take the place of, your provider's care.

HouseCalls may not be available in all areas.
